Re: Letter of recommendation for Horacio Ivan Chiesa

1/28/2017

Dear Sir or Madam,

With the present letter I am glad to confirm the professional skills of Mr. Horacio Ivan Chiesa with whom I had the opportunity and the pleasure to work from 2011 to 2013. Together we offered classes and workshops both for children and adults in Europe. Precisely we co-presented workshops in Italy, Spain and Switzerland. We were also part of the faculty for the Swiss Academy of Floriterapy (Bach flower essences).

We also trained Swiss and Spanish teachers in the “*Easy attention in the Classroom*” approach to learn how better manage the students’ attention span and to improve their energy levels while incorporating tools of yoga and the expressive arts. Mr. Chiesa has implemented the above mentioned programs with his skills as project manager and organizer and also by helping with all logistical and practical set up of the programs and also by teaching several portions of it. On several occasions he also helped to co-teach the programs and he was very helpful in preparing power point presentations and the digital layout of handbooks.

Our work experience together expanded also to after school programs for young people at public elementary schools in Switzerland. We also taught at the TASIS, the American school in Lugano. Mr. Chiesa showed genuine empathy, sense of humor and

deep listening capacity while working with elementary school students from different parts of the world. In brief Horacio is a great team worker, willing to learn new skills, eager to cooperate for common goals and capable to implement what he does with his spiritual and humanitarian aspirations.

After moving to Maui he constantly studied to improve his knowledge of English and he successfully offered an innovative after school program “Archismart” to the Roots school in Maui for several weeks. In 2011 Mr. Chiesa co-created with me the first part of this unique educational approach to architecture for young children, and later he implemented this program with all his professional skills and creative gifts.

Horacio also completed the YogaEd training as a yoga teacher and he has been a practitioner of yoga for decades.

I do recommend Mr. Chiesa for any work that addresses the growth of the human being as a whole, especially in the educational field with young people, and also when teamwork and organizational skills are needed.
